Our Services

GRAPHIC DESIGN

We design **ONLY** for you!

In plus+ we commit on designing all kinds of visual or digital communication. Our team suggests comprehensive solutions, offering a wide range of professional visual services to our clients.

Particularly:

Branding.

Whether it is about a logo design or a full corporate identity, PLUS team is always thoroughly and rigorously researching before and during Brand Designing and promotes the personality of a brand to the public, steering them to choose it.

Printed visual communication.

Digital design.

- Design and create video clips.
- Photo and video editing.
- Photo shoot and video.

Online applications.

- Website design (static, diamic, online store, mobile, websites).
- Social media support.

Conference Support

We undertake the editing of texts, the creation and printing of posters, programs and other conference forms as well as the conference projection systems. Also the Linguistic control of the printed material.
We provide all accessories and promotional gifts and undertake their design and printing with the brand of the conference.
We also undertake the design and support of the conference website as well as its promotion on social media.

DIGITAL PRINTINGS

Office support

Color and black and white prints, manuals, studies, vending materials, training materials and presentations are just some of the needs we can meet.

Marketing support

Written advertisements, posters, catalogs, envelopes, invitations, mutants, business cards, flyer, etc.

Publishing support

Brochures, posters, catalogs products, folders, invitations, variable data applications, business cards, flyer, etc.

Finishing and bookbinding

After printing each job, the printings are checked and passed to the final stage of finishing and binding in order to finalise the product .

OFFSET PRINTING

With Offset technology we have the ability to produce medium and large circulation forms (quantity of form). We print from your business card to books and catalogs.

Offset has a wide range of printing substrates and in combination with modern printing technologies can create luxury printed products.

LETTERPRESS

Letterpress is one of the oldest printing methods. The feature of this method is the depth of the letter on the paper. The printing is done with a male cliché, like the thermotype, where you apply the ink and transfer it to the paper by pressure. This style requires know-how that very few companies possess.

LARGE FORMAT PRINTING (LARGE FORMAT PRINTING)

With the ECO Solvent digital technology in large format printing we cover all kinds of outdoor advertising, visual interventions in the exterior and interior of buildings, cars and trucks wrapping, shop windows, giant posters, conference posters, exhibition stands, floor graphics in various materials.

UV FLATBED PRINTING

Direct printing on flat hard materials, such as Forex, PVC, wood, Plexiglass, Glass, Metal etc. An important advantage is the ability to print on materials that are colored or transparent with excellent results.

DISPLAY SYSTEMS

Wide variety of portable display systems like Roll up Floor stands, in various sizes.

SPECIAL STRUCTURES

We offer cutting and engraving of high precision and high quality services, which are applicable to a variety of materials.
